Voice of the Customer

REPRESENTATIVE USER FEEDBACK

"Been waiting for KYC approval for 4 days now. My friends using other apps got verified in hours. Very disappointed."

Theme: KYC Verification Delays • **User Type:** New users, first-time investors

"Withdrawal stuck for 2 days with no update. This is my hard-earned money, I need better visibility on where it is."

Theme: Payment Processing Issues • **User Type:** Active traders, mutual fund investors

"App keeps crashing when I try to buy stocks during market open. Lost a good entry point today because of this."

Theme: App Performance • **User Type:** Active traders, stock investors

"Love the app but finding SIP options was confusing. Took me a while to figure out the interface."

Theme: UI/UX Confusion • **User Type:** First-time investors

Recommendations & Next Actions

PRIORITY-BASED ACTION PLAN

P0

Implement automated KYC verification using AI/ML document verification

Problem: Manual KYC process causing 3-5 day delays

→ **Expected Outcome:** Reduce verification time from days to hours, improving onboarding conversion by estimated 25%

P0

Add real-time withdrawal tracking dashboard with status updates

Problem: Users anxious about withdrawal status with no visibility

→ **Expected Outcome:** Transparency reduces anxiety and support queries, builds trust

P1

Optimize app performance with CDN caching and API response optimization

Problem: App crashes during peak trading hours

→ **Expected Outcome:** Smoother trading experience, no missed opportunities

P1

Redesign mutual fund onboarding flow with guided walkthrough

Problem: New users struggling to navigate core features

→ **Expected Outcome:** Improve feature discovery rate by 35%
